

BAD NEWS: people who left it late to book the November 2012 **Using Soft Systems Methodology** training course missed out.

GOOD NEWS: A RE-RUN HAS BEEN ADDED on Friday, 8 February 2013

BUT: all those who missed out last time have already booked and remaining spaces are **very** limited. Prompt booking for this additional course is highly recommended.

The November 2012 sell-out

COURSE DETAILS

This is a practical course aimed at developing expertise in applying Soft Systems Methodology (SSM). We look at the application of SSM for problem structuring within complex projects, and how to use the approach for planning the project process.

- The practical skills of applying SSM
- Using SSM for thinking about and planning projects
- The importance of process and process facilitation
- Using SSM models to improve dialogue and decision making
- Direct application of SSM in the delegate's workplace

Course Provider: Mark Westcombe (Attivation)
8 February, Birmingham
£540 + VAT Members; £590 + VAT Non members
A Hands-on course
